

CARRIER-BASED PLANES STRIKE AT MANILA

The War Today...

By DeWitt MacKenzie
AP War Analyst

THE ALLIES have been doing a workmanlike job over the week-end in ousting the Germans from the last of the great port of Antwerp in neighboring Belgium. The task is nearly completed. This means that the great port of Antwerp in neighboring Belgium shortly will be available for the movement of much needed supplies to support the Allied assault on the Siegfried defenses. Thus far the Navy heavy artillery has been able to block shipping by commanding the estuary of the river Scheldt on which Antwerp lies.

There also has been an unusually heavy bombing of the German defenses, communications and industries in the Cologne-Arnhem sector—the type of bombardment which precedes big offensives. So on the whole the weekend developments have been in fact reaffirmation that our Allied high command intends to launch a major drive at the earliest feasible moment. A lot, of course, depends on the opening up of Antwerp.

The Germans are continuing their tactics of hanging on for time, and these delaying actions—Holland is a prime example—are producing stiff fighting. However, Hitler's effort to stall off going to the dentist is merely piling up pain for him in the inevitable clash when he has to give in. The Reich is enduring terrific punishment for his sake.

Still, there's no sacrifice the Nazi dictator won't demand to save his own skin. Under his directions the German command is rushing work on fresh fortifications west of the Rhine in preparation for the Allied assault. Hitler's idea is to hold this river and so protract the war into next year. That's the most formidable line of defense still facing the Western Allies.

Well, we shall see. Certainly the deep, deep and fast flowing Rhine presents tougher proposition than even the Siegfried line. We shall be smart if we make up our minds now that the Allies may be held up for a considerable time at this great river, which undoubtedly will be heavily defended on the east bank. The negotiation of the open terrain between our present lines and the river is likely to be far less difficult than the crossing, though we must expect hard fighting and the weather and mud will be allied with Hitler.

Nevertheless, once the United Nations forces have reached the west bank on the Rhine they will be in position to exert a new and terrible pressure on the Germans even before the war is over.

'Horse-Collar' Lifesaver
Photos above were taken at a Coast Guard demonstration in the Atlantic off New York of the Navy's newest sea rescue device—a horse-collar-shaped life preserver dropped from a Sikorsky helicopter. Having spotted the "victim," the aircraft hovers over him, drops the harness, as at left. It consists of (upper right) the U-shaped preserver, which the "victim" slips about him, under his arms, and a strong webbing loop, in which he sits, to be hoisted aloft to safety, as at lower right.

Bricker Campaigns In Home State; Dems Await President

FIND INFANT DEAD IN LEETONIA DUMP

County Authorities Probe Death of Month-Old Unidentified Girl

An unidentified, nine-pound baby girl with blue eyes and blond curly hair, believed to have been killed by the blow of a blunt instrument at the base of the neck, was found in a refuse pile several feet off the Sandbank road, about two miles east of Leetonia, at 12:30 p. m. yesterday.

Edward, Paul and William Bierling, who came upon the body, told Marshal Henry Gibson and a deputy from the sheriff's office that they saw the tiny feet of the infant sticking out of a cardboard box as they passed a pile of tin cans and refuse. The child evidently had been thrown from a passing car, Coroner Arnold Devos said.

Devos said the baby, which he estimated was less than a month old, had been dead approximately 18 hours. He believes death resulted from a blow at the base of the skull. A depression and obvious bruise were visible on the child's neck.

Unclothed, the child was wrapped in several face towels, a kitchen towel and a pair of women's green ankle socks.

Devos said all indications were that the child had been born alive and killed after birth, as it was fully matured. It weighed between eight and a half and nine pounds.

The body was taken to the Woods funeral home at Leetonia and was to be buried today.

Jury May Decide Fate Of Army Officer Today

CINCINNATI, Oct. 30.—Prosecution and defense attorneys today present final arguments to a jury of eight women and four men in the second degree murder trial of Army Capt. Robert J. Connors, handsome, 27-year-old Philadelphia, who is charged in the bathtub death of his pretty wife.

Shortly after noon it was expected the jury would start deliberating testimony and evidence presented in the trial which started a week ago today.

EXPECT VOTE OF 44 MILLION NEXT TUESDAY

Campaigners Head Down Home Stretch In Final Week of Talks

By J. W. DAVIS
Associated Press Staff Writer

State officials now estimate that more than 44,000,000 persons will vote in the election a week from tomorrow.

And an unestimated amount of political oratory and other energy remains to be directed at getting these votes into what, variously, are held to be the right camps.

Much of the rest of the campaign will be packed into the eastern and northeastern states, with President Roosevelt and Governor Dewey both headed for Boston in the battle for Massachusetts.

The total vote estimate of 44,000,000 plus, which includes 3,392,000 service men and women, was compiled by The Associated Press from state officers who did their figuring on the basis of incomplete registrations and estimates of otherwise qualified voters. It compares with the actual total of 49,815,312 in 1940.

Mr. Roosevelt is expected in Boston Saturday night; his Republican opponent is to speak there Wednesday night, reserving his own last-Saturday-night-before-the-election spot for Madison Square Garden in New York.

On Radio Tuesday
Dewey is spending today in Albany, in connection with a special legislative session called to consider extending New York voting hours.

Tomorrow night, Dewey is down for a talk in Buffalo, N. Y., at 9 over NBC.

Dewey's running mate, Gov. John W. Bricker, campaigned in Michigan today, his work there to be topped by a radio broadcast tonight from Detroit at 8:30 (NBC). He announced an eastward swing of 16 speeches to wind up the campaign, four of them hitherto undisclosed to be in the New York-New Jersey-Delaware area.

Mayor James Garfield Stewart of Cincinnati, Republican, candidate for governor, said in a formal statement today: "There was no question about Bricker and Gov. Thomas E. Dewey of New York, presidential nominee, carrying Ohio 'by several hundred thousand' votes."

Answering repeated assertions by Mayor Frank J. Lausche of Cleveland, Democratic gubernatorial aspirant, that Stewart was the "hand-picked" candidate of Ed D. Schorr, GOP state chairman, the Cincinnati said:

"My P. A. C.-endorsed opponent would have the people believe that I would allow Republican bosses to dictate my policies."

"I have always been my own boss and I will always continue to make my own decisions. Every private and official act of my life gives the lie to this shop-worn, trumpeted-up campaign charge."

"On the other hand, there's a brand new crop of bosses springing

1,086 ARE X-RAYED IN CHEST CLINIC

A total of 1,086 persons participated in the first mass chest X-ray survey held here Thursday through Saturday by the Columbiana County Public Health League, Miss Lillian Schroeder, league secretary, announced today.

The greatest number of persons who received the free X-rays were between the ages of 30 to 39, figures showed. The largest number of workers were those of the Columbia Lamp works, where 75 employees participated.

Sixty-five food handlers, 185 housewives and 100 clerks in various types of work were among the exceptionally large number who were examined, planned to discover sufferers of tuberculosis during the early, curable stages.

Workers at several local plants were pictured and the remainder of the number were taken during public sessions at the Ohio Edison building.

"Extremely successful" was the term used by league officials to describe the first of the surveys ever held in Salem as a public health measure.

Only French Army To Carry Weapons

PARIS, Oct. 30.—Predictions of nationwide demonstrations accentuated today an incipient crisis precipitated by the De Gaulle government's action in forbidding everyone except the regular army and police to bear arms.

The order, apparently directed at Communist partisan elements who have defied the government's authority, particularly in southern France, met instant opposition from the influential national resistance council, brains of the French underground during the German occupation.

At a conference with a delegation from the council De Gaulle said the government would insist that the decree be respected.

The order presumably does not affect the French Forces of the Interior, which have been integrated—at least in theory—into the French army.

In some cities of southern France Communist party headquarters have been acting as recruiting centers for the militia.

The Communist newspaper "Humanite" asserted that the armed bands were directing their energies against pro-German elements still committing acts of terrorism in southern France.

Former Film Star Aids Bomb Victims On Leyte

MEI BOURNE, Australia, Oct. 30.—Working in a torn khaki shirt and "rolled" dungarees, Lew Ayres, the former film star, is assisting in the treatment of Filipino victims of Japanese bombing raids on Leyte Island, the Melbourne Herald's correspondent reported today.

Ayres, technically a chaplain's assistant, volunteered for the duty when casualties began to pile up, he told the correspondent.

Death Toll In Cleveland Blast Now Placed at 137

CLEVELAND, Oct. 30.—Workers today continued the search for victims of the East Ohio Gas Co. explosion and fire, while scientists and doctors attempted to aid identification of the unknown dead.

Coroner S. R. Gerber indicated he expected few, if any, additional bodies would be recovered from the ruins. Anything left, he said, could be "no more than unidentifiable ashes."

The death toll leveled off at 137, with 64 bodies identified and 74 persons still on the list of missing.

Boy, 8, Is Hero In Fire

CHICAGO, Oct. 30.—Eight-year-old Vance Norum's father is in the Army but he proved a worthy "man of the house" yesterday when a fire started spontaneously in his home. His quick thinking was credited with saving the lives of six persons.

When smoke curling from under a closet door awakened Vance he acted quickly. He carried his two younger brothers, 5 and 2, downstairs; called the fire department; awakened his mother and three women roomers.

Jap Helps Bong Boost Air Toll To 23 Planes

(By Associated Press)
LEYTE AIRFIELD, Philippines, Oct. 29.—(Delayed)—A Japanese plane destroyed itself while trying to escape the deadly guns of Richard I. Bong, helping America's top ranking fighter ace to run his string of victories to 33—the last trio bagged during his first 72 hours in the Philippines.

The bomber, which was shot down by Bong's 31st less than three hours after he landed.

He got his 32nd this morning without firing a shot and his 33rd a few minutes later.

Bong roared down Leyte field into the air just as three Japanese fighter-bombers swept toward this airbase. He threw his Lightning into a steep climb and went after the last Japanese plane, which hadn't yet dropped its bomb.

Jecketing to get out of the way of Bong's guns, the Japanese pilot pulled into a climb and at the same time jettisoned his bomb to gain more speed. The bomb struck the tail of the Japanese plane, and tore it off without exploding.

The tailless plane crashed into the water.

Turning to one of the other two, Bong picked it up after another Lightning pilot had missed a pass. Bong set the Jap plane aflame into the sea only after one of the two engines on his own Lightning had been shot out.

Odds On Re-election Of F. D. R. Shortened

(By Associated Press)
ST. LOUIS, Oct. 30.—Odds on President Roosevelt's re-election have been shortened from 3-1 to 17-5 and the odds on Gov. Thomas E. Dewey lengthened from 1-2½ to 1-3, betting Commissioner James J. Carroll said today.

Under the new odds bettors must wager \$17 to win \$5 on President Roosevelt's re-election or wager \$3 to win \$3 on the election of Gov. Dewey.

Carroll, in releasing his first list of odds by states which show Roosevelt favored to win in 32 and Dewey in 16, said the President is figured to take 370 electoral votes while the states with the Dewey money total 161 electoral votes.

Roosevelt's states as listed by Carroll: Washington, Montana, California, Arizona, Utah, New Mexico, Texas, Arkansas, Louisiana, Mississippi, Alabama, Tennessee, Georgia, North and South Carolina, Florida, Virginia, Nevada, Oklahoma, Missouri, Kentucky, Pennsylvania, Maryland, Delaware, Connecticut, New Hampshire, Rhode Island, New York, New Jersey, New Mexico, Oregon and Massachusetts.

Dewey's states: North and South Dakota, Nebraska, Kansas, Iowa, Wisconsin, Indiana, Vermont, Idaho, Wyoming, Colorado, Michigan, Ohio, Maine, Illinois and Minnesota.

MOOSE LODGE HIT BY FIRE

Firemen Are Able to Halt Blaze After Its Discovery Early Sunday

Fire that could easily have spread over a wide area caused serious damage to the lodge rooms of the Moose Lodge at 580 E. State st. at 3 a. m. Sunday and burned through the ceiling of the state liquor store on the first floor, causing slight water damage there.

Discovered by employees of the Salem Cab Co., who saw the smoke rolling from the second floor lounge and bar of the lodge rooms, the fire damaged furniture in the rooms and destroyed the bar and back-bar before firemen could bring it under control. A partition between the tap room and a lounge was destroyed and water and smoke caused severe damage to furniture.

Chief Vincent Malloy said the old Colonial building next door and other adjacent buildings were in serious danger for a time.

To extinguish the blaze firemen broke the second story windows with ladders and used 600 feet of 2½-inch hose to fight it from the outside. Entrance was made up the east side of the building on stairs that enter the rooms through the Colonial building. Firemen fought through a dense smoke on the stairs and employed 500 feet of three-quarter inch hose inside the building.

Several outlets from the Moose rooms into the Colonial building endangered the adjoining structure but fortunately, Malloy said, the fire only neared the other building where a protective fire-wall stopped its progress. Firemen halted the progress of the blaze towards the other outlets.

Cause of the blaze is undetermined, but it is believed that a lighted cigarette thrown on the rug may have started it. Firemen fought the fire until 5:45 a. m.

Liquor store clerks reported slight damage in their establishment. No stock was damaged, but considerable dirt and debris littered the room. Only one bottle of brandy was broken and a few labels were soiled on other shelves.

Some damage, mostly from water, was reported in the lobby of the Grand theater, but operations there were not disturbed.

GERMAN STAND IN LOWLANDS IS CUT INTO FOUR POCKETS

(By Associated Press)
LONDON, Oct. 30.—The German stand in the southwestern lowlands had been cut into four dwindling pockets today and German forces below the Maas river were disintegrating under a concentrated Allied attack and the drive of Allied armies racing to the Moerdijk escape bridge only six miles away.

The four pockets were below the Maas where the chief resistance center of Breda had been taken; on Beveland Island, on flooded Walcheren Island, virtually cut off by a Canadian drive to within 3,000 yards of the causeway connecting with Beveland; and a tiny six-mile long, four-mile wide corner of Belgium south of the Schelde.

The drive across flooded lowlands, laced by canals and dikes, in the campaign to clear the Schelde approaches to the Allied harbor of Antwerp, was gaining momentum and approaching a conclusion after some of the most difficult fighting of the war.

Guns Under Water

On Walcheren the remnants of German forces were fighting from islands within the island-bits of land and raised dikes around the principal cities of Vlissingen (Flushing) and Middelburg which stood above the flood waters loosed by Allied bombing of the seawalls. The Germans admitted many of their guns were under eight feet of water.

The German high command said other Canadians, after a violent artillery bombardment, had launched a major attack on Dunkerque, a remaining coastal pocket in France, and had achieved a "temporary" penetration.

To the east a four-day German counter-thrust by two anchored divisions, supported by tanks, planes and much artillery, had gained headway, but it was too late to be of great aid to the remnants of the war.

Plaque Honoring Memory Of 66 Miners Unveiled

BELLAIRE, Oct. 30.—Thomas Kennedy, international secretary of the United Mine Workers of America, speaking at the unveiling of a monument to 66 miners killed in the Powhatan mine July 5, urged improvement of both state and federal laws to make coal mining safer.

The word and plaster shaft, to be replaced later with one of marble, bears the names of the 66 fire victims. The memorial ceremony was held in Powhatan cemetery yesterday.

Kennedy, substituting for UMW President John L. Lewis, who was unable to appear because of a throat infection, shared the program with John Owens and Adolph Pacifico, president and vice president, respectively, of the union's District six.

Nation's Traffic Deaths Show September Decline

CHICAGO, Oct. 30.—The National Safety council, which records the nation's accidents but works to prevent them, today gave a mild pat on the collective backs of the country's drivers and walkers and said if the improved traffic conduct continues there is a better than even chance the 1944 toll will be less than 1943.

In September, the traffic deaths decreased 10 per cent compared with the same month last year, 1,880 against 2,089. This brought the toll for the first nine months of 1944 to 16,360, four per cent greater than the nine month total of 15,720 last year.

The council pointed out that despite increased traffic deaths in the early months of the year, there was every indication that only unexpected changes in traffic volume can send the 1944 death toll above 23,000—400 below last year's mark. It said for the first eight months this year mileage was about 2 per cent greater than in 1943.

171 Jap Planes Downed

In the air the Japanese lost 171 planes. Ten U. S. aircraft were shot down, carrying with them 18 airmen.

Possibly only two Japanese ships escaped undamaged by the merciless fire of American warships, planes and submarines. Nippon's losses, totaling 500,000 tons, exceeded the combined warship toll taken in the four greatest previous naval battles of the Pacific war. No modern fleet has been so badly mangled in a single engagement.

American submarines spotted and attacked 28 or 29 warships headed toward the Philippines from Singapore. Carrier and land-based planes bombed and strafed them as they split into two flotillas and thrashed through narrow Philippine straits and into a double trap in the eastern Philippines.

Another force, nearly as large, speeding down from Japan was detected by a scouting plane. Combined U. S. carrier forces raced north to intercept, caught the Japanese by surprise 200 miles north of the Philippines. Carrier planes led in knocking out this task group as U. S. warships closed to within close gun range, then wheeled and raced south to aid in the rout of the other enemy naval forces off the Philippines.

Unconfirmed Tokyo radio reports today said more than 200 U. S. carrier planes swept the Manila area in three waves Saturday and on Sunday Japanese planes began attacking an American carrier task force in Lamon bay on the east coast of Luzon, opposite Manila. Four carriers were reported in the group.

Infantry and tank troops driving through the rain and mud of the Philippines broke up all organized resistance in Leyte valley which MacArthur said "for all practical purposes is ours."

3 JAPS ARE KILLED IN ESCAPE ATTEMPT

DENVER, Oct. 30.—Three Japanese naval prisoners, who more than two months ago failed in a suicide attempt, were shot and killed at Fitzsimmons General hospital last night as they rushed the guard in an attempted uprising. Brig. Gen. Omar H. Quade, commanding officer, announced today.

Gen. Quade said a board of officers would investigate. A guard is being held in technical detention.

The three Japanese, who were captured in the South Pacific, sought to commit hara-kari last Aug. 11. Two slashed themselves across the abdomen and the third inflicted a cut on his head, but the attempt failed when guards found them in time and they were treated by physicians.

All three were tuberculosis patients.

The dead: Chief Gunner's Mate Kuzuhori Mankino, Warrant Officer Saburo Nakagawa and Pfc. Sadamu Okada.

Someone Eating Crow

The terse announcement that Gen. Joseph Stilwell has been relieved as United States commander in the Far East is circumstantial evidence that someone is eating crow.

Gen. Stilwell was given top rank last Aug. 1, presumably in recognition of the importance of what he was doing and intended to do.

He had become a symbol to his countrymen of the do-or-die spirit which has kept the Allies from being routed in the Asiatic campaign.

He was supposed to be this country's leading military expert on China, the man best fitted to work with Generalissimo Chiang Kai-Shek.

Most important, he was generally believed to be our leading military expert on the peculiar problems of Asiatic warfare.

To relieve such a general of his command and to call him home at a critical juncture in the war in his theater could be the result only of some extreme emergency; it has all the signs of a showdown by someone who had made Gen. Stilwell's recall a point to be carried at any cost. If it is not that, and if it is not a means of shifting him to a more important command under concealment of an apparent reprimand, the only possible explanation is that Gen. Stilwell has lost the confidence of the Roosevelt administration.

Until fuller details are made available, definite judgment is impossible, but obviously confidence in the leadership of one of the theaters of war will have to be reestablished. It has been injured more than necessary by the strange circumstances of the announcement sprung suddenly on a public which had been taking Gen. Stilwell's leadership for granted.

Roosevelt At Philadelphia

President Roosevelt's campaign speech review of the war effort in Philadelphia Friday night is the most direct and personal application of the New Deal doctrine of the indispensable man so far.

The American war effort has been gigantic and glorious. It has turned the tides of fortune and made history. It will be a permanent tribute to the skill, initiative and determination of the American people.

But in the campaign focus which Mr. Roosevelt seeks his countrymen to use, the war effort is made to seem like something which flowed out from him and would cease if anything happened to take him out of the picture.

In other words, Mr. Roosevelt implies that if he were to be succeeded by his vice president, Henry A. Wallace, before next January, or, if he is reelected, by Harry S. Truman, his choice for vice president in his fourth term, the national war effort would be paralyzed for lack of its indispensable man. That is clearly as much the import of his argument as it is that if Thomas E. Dewey wins the election the war effort will suffer.

Perhaps Mr. Roosevelt is irreplaceable in his own view, but aside from the purpose of his political campaign it must be obvious that he cannot become irreplaceable in the view of others. If either the waging or the outcome of the war depended wholly on the existence of one man, that would be a tragic fate for 10,000,000 fighting men and 125,000,000 civilians keeping them supplied.

Mr. Roosevelt is entitled as commander-in-chief to say, "Well done." But even in a political campaign, he is not entitled to imply it was personally done. Our war effort is being made by the nation, not by the presidential candidate who seeks a fourth term on the claim of his own indispensability.

The Secret of Victory

Estimated damages to Japan's battle fleet, if the estimates are reasonably conservative, bring the secret of complete naval victory within grasp of the United States.

The secret is the ratio between naval loss and enemy power. Simply stated, the loss of 20 per cent of its total fighting units would not mean merely that Japan's fleet had lost 20 per cent of its effectiveness; it would mean that the fleet's loss in effectiveness might be as high as 50 per cent, depending on circumstances. The classic example of this rule was the Battle of Jutland in World War I, when the German fleet, though the victor on paper, never dared meet the British fleet again because it lacked replacements. When the war ended, most of the German fleet in existence during the war was scuttled. It is only guesswork, but the Japanese fleet conceivably could spend the rest of the war evading a showdown which it would not dare to risk.

The same secret of victory is working for the Allies in Europe, in connection with air power. Germany's air arm, which still may be formidable on paper, has lost strength in geometric ratio to Allied strength; if it now is 75 per cent reduced in numbers, it is on many occasions 100 per cent reduced in effectuality. These signs of declining ability to fight will bear even closer watching in the months to come than the ground gained. Both wars could end, as far as fighting is concerned, long before the invasion of Berlin and Tokyo.

Tracy and Jenkins

It is a source of satisfaction to see on the state ticket this year the names of two young, vigorous and broad-gauged candidates—Roger W. Tracy for auditor and Hugh S. Jenkins for attorney general.

Mr. Tracy is the son of one of Ohio's best-known and best-loved officials of another day, Joseph T. Tracy, who served as auditor from 1921 to 1937. Roger, in his own right, has had a wide business experience as an auditor and he has performed similar tasks in exemplary fashion in public capacities.

Mr. Jenkins lives in Youngstown, but he is a Se-

bring man by boyhood, education and early experience. He began his career as a lawyer 24 years ago. His service to the public started as assistant prosecutor of Mahoning county. In 1939 he was appointed chairman of the state board of tax appeals and later he became administrator of the bureau of unemployment compensation, from which he resigned to be a candidate for attorney general. He is a former president of Ohio State's Alumni association.

No Monopoly of Patriotism

One of the strangest antics of New Dealing, as Gov. Dewey has reminded us with his review of Sen. Vandenberg's part in passage of the legislation establishing the Federal Deposit Insurance Corp., is the way it has exploited the people's notoriously short memory.

In 1933, banking reform was the principal order of business. The Glass-Steagall bill amending the federal banking laws was passed overwhelmingly by the house and senate, but in the upper house it picked up Sen. Vandenberg's amendment proposing immediate insurance for bank deposits up to \$2,300. The Democratic majority in congress wrangled over that amendment for months and finally adopted a compromise.

Yet, in due time—and depending on the people's short memory—New Dealers were to claim the Federal Deposit Insurance Corp. as one of their inspired acts, just as they also were to lay a bogus claim to Reconstruction Finance Corp., which was established by President Hoover.

The Stars Say

For Tuesday, October 31

BY A STRICT regulation of rules and codes, according to accepted tenets and methods of conventional ways of life, there may be some definite progress made through industry, application and persistent efforts against odds. Not only hard work but a sane, balanced and properly governed management of the impulses, emotions and temper should eventually bear solid fruit. Property and finances may be stabilized, and opposition from influential sources may be deftly and astutely handled. Diplomacy and not strife should win.

If It Is Your Birthday

Those whose birthday it may experience a year in which final progress and pleasant relations are established by industry, organized plans and methods with patience and perseverance against opposition and adverse situations. Sound judgment, some deep thinking and an amiable and compromising approach should be used to those antagonistic or indifferent. Rash indulgence in quarrels, impetuosity or want of emotional restraints may aggravate difficulties. Be calm, self-possessed, sociable, and there may be progress and personal joys.

A child born on this day may be serious and industrious but may give in to fits of temper or emotional outbursts defeating its best plans, especially if it also indulges its love of excess.

Homes For K-9 Veterans

Dogs attached to our armed forces have performed a real and valuable service in this war. If they hadn't, the notoriously unsentimental Army and Navy would not have used them. Now many of these war dogs are being discharged.

Most of them will be returned to their owners, but some will be sold.

It probably will not be necessary to urge on a dog-loving nation the need for a "veteran rehabilitation" program for these K-9 veterans which congress can't provide. Undoubtedly there will be more bidders than can be satisfied for these war dogs which, after a tour of strenuous duty, are now deserving of affection, chasing, a warm corner, and other comforts of a well-regulated canine existence.

But it might be well if communities where these dogs are brought should welcome them as graciously as have the city fathers of Jacksonville, Fla., who have waived license fees for K-9 heroes honorably discharged from service.

Grandma's Tactics Still Good

By LOGAN CLENDENING, M. D.

GEN. PATTON has taught us that grandma wasn't so dumb. It may seem a long and far-fetched way from the general to grandma, but in this brave new world, the

flares on the hilltops light up some of the good things of the past as well as the road to the future.

All Gen. Patton was doing in France, avers my old friend, Dr. Adrian Gibbs, was using a poultice. When you used to have a sore place under your skin that looked like a boil on the way, grandma used to put a flaxseed poultice on it, and by and by if it came to a head she let it out, and put some arnica or iodine on it.

The germs underneath the skin that were making the inflammation and pain were the enemy soldiers, and the poultice was the task force, employing penetration and drawing out movements. When the enemy was exposed, the arnica or iodine, as the case may be, was the direct action, the mopping up action of the ground forces capturing, killing and rendering useless the soldiers of the enemy.

Similar to Paratroops

If the infection is one that responds to sulfanilamide or one of the sulfa drugs, or penicillin, which go into the blood stream and kill the germs where they are making trouble behind the lines, these can be compared to the paratroopers. It is a new development. Grandma didn't know anything about paratroopers.

The principle of the poultice is osmosis and it can be used in many forms of treatment besides that of poultices. Tampons of various kinds used in various cavities of the body all depend on the principle of osmosis for their action.

Osmosis force can be directly measured on a machine. A small drumlike gadget with tambours of a membrane, such as cellophane, which allows osmotic diffusion is filled with a sugar solution and immersed in a beaker of distilled water. A gauge affixed to one side of the tambour can be connected with a moving roll of paper by a recording pen and it will show that the water entering through the cel-

One thing is now clear—America has lost the war.

—Japanese broadcast.

We mean to succeed this time in making war difficult, if not impossible, by meeting our problems around the conference table and not on the field of battle.

—Dr. Henry A. Atkinson, secretary Church Peace Union.

The English aren't talking or thinking about reconversion to the degree we are here. They are concentrating in the job at hand, which is winning the war.

—Maury Maverick, chairman Smaller War Plants Corp.

When we do force our way to Japanese soil, we must be prepared to face larger forces than we encountered in our landing in Normandy. There will be no guerrilla elements in the interior to help us. And the Japanese army will be bigger than it was at the commencement of the war.

Breezed in the following afternoon to find Boggio stretched out on the divan. He had put on his slippers and was going through some papers filed in the little portable desk beside him.
"Well, Virgil," I said cheerfully, "I see you're up and around."
He glared at me.
"What's that idiotic grin on your face for? Anything funny about this?"
The sudden crack took the wind out of my sails. I looked at him expectantly.
"I wasn't grinning. I'm merely saying you're all right."

ROSS MICHENER
PRESENT BELMONT COUNTY PROS. ATTY.

DEMOCRATIC CANDIDATE FOR
REPRESENTATIVE TO CONGRESS
18th OHIO DISTRICT

and Carroll Counties

A Candidate who WILL support measures for the hasty and successful conclusion of the war and the establishment of a lasting peace.

I didn't realize it then, but I'd been about as tactful as a guy who asks a woman how old "she" is. Boggio was still ranking because I'd seen him bellyaching the night before and he was making it his business to regain his former prestige.

For a moment Boggio continued reading, then he suddenly threw the document down.

"Damn you!" he said. "The way you stand there looking at me you'd think I was a museum piece. If there's anything funny about me, say so. Maybe my nose is green. Or there's straw in my hair."

He began sputtering the way he always did when he worked himself into a rage. Now it was all clear to me. When I came in I should have acted as if nothing had happened the night before.

I know better than to argue when Boggio gets that way. I sat down, fixed my gaze on a cigarette burn in the carpet, and waited for the storm to blow over. But it didn't. He got off the divan, shoved his feet into a pair of red leather slippers and started pacing up and down.

"What the hell do you do with yourself all day, Leo? Why aren't you learning? Improving yourself. Why don't you go to court and pick up a few ideas instead of playing around? D'you think I'm keeping you for the run of it? D'you think I'm paying out good money so you can buy yourself fancy cars and burn up the town?"

I gripped the edge of my chair. The injustice of this sudden onslaught was enough to make anyone fight back. But when you've been around Boggio for some time you know when to control yourself. First he has to say his piece and then he'll calm down. So the torrent of words continued and I kept looking at the floor.

After a while Boggio's voice broke and he sat down. I got up, walked over to the kitchen and brought back a glass of water. He gulped it down, then panted, getting back his wind. It looked like an opportune moment for putting in the two cents' worth.

"Look, Virgil," I said quietly. "You don't like the way I'm earning my dough. I don't like it either. D'you think I get any kick out of these piddling little jobs you've been giving me? Drawing up contracts that a half-baked law student could do with one hand tied behind his back. I'd like to sink my teeth into something worthwhile. I'm ambitious and I'm getting stale. All those months you were away in Cuba I was waiting for you. And you got back in the nick of time. I was flat broke. The morning you called me I was looking at the Help Wanted ads. That wouldn't have happened if you'd let me open a law office. And I could still handle all your work."

This wasn't my diplomatic day. He crashed his fist down on the table beside him, knocking over the half empty glass. It began dripping on the carpet and I picked it up.

"For Chrissakes!" he yelled. "How many times do I have to tell you I don't want no law office. And no other office of any kind!"

That got him started on round two. I could have kicked myself for not keeping my mouth shut. This had always been a sore spot between us. Me asking for an office and Boggio refusing because he didn't want me to become too independent.

"Who put you where you are?" he continued. "Who gave you your first break? I did! So get this straight! I've got you tied up and you'll do as I tell you. I own you, see? Like I own these slippers! Like I own Ginger!"

I didn't say anything. Maybe he hadn't heard about Abe Lincoln yet. Since it was useless trying to get anywhere with him this afternoon, I waited till he was all in again, then walked to the door.

"I'll be seeing you, Virgil," I said, "when you feel better. Good-bye!"

I slammed the door behind me.

Ginger called me up that evening.

"I'm speaking from a drugstore. Virgil's up but he hasn't moved from the house all day. He's in a vile temper."

"You're telling me! He practically slaughtered me this afternoon."

"You mean you were over?"

"Sure I was. Where were you?"

"Getting my hair fixed."

"How long can you stay away now?"

"I can't. I went out to buy some bicarbonate. He's waiting for me."

I was tempted to tell her to ditch him; then I thought better of it.

Call me again the moment you're free, Ginger. I want to see you badly."

"I want to see you too, Leo."

"All right, hon. Make it soon."

"I will, Leo, by."

Today's News From Washington

HIDDEN WEALTH In America's largely uncharted continental crust will be sought by scientific prospectors.

The Bureau of Mines hopes to conduct a 5 million-a-year quest for mineral ores, lasting perhaps two post-war decades. If it can get the necessary appropriations.

There was nothing like this before the war, but a frantic emergency program has uncovered such metals as tungsten in Idaho and North Carolina, aluminum from bauxite ore in Virginia.

A CONSOLIDATED-VULTEE Liberator transport flew from Honolulu to Hamilton Field, Cal., in the record time of eight hours, 54 minutes. Consalway Co. officials announced in San Francisco. The four-motored plane was piloted by Captain Probert.

SIGNIFICANT SILENCE envelops bureaucrats who'd be a campaign liability. Manpower czar McNutt, distasteful to labor, and Attorney General Biddle, no joy to business, keep off the hustings. Henry Morgenthau hasn't held a press conference since the revelation of his plan for scuttling German industry. Hopkins and Perkins are stony silent.

UNPLEASANT DECISIONS are postponed until after the election. War agencies tread lightly on controversial matters. The old Truman committee to investigate the national defense program (now directed by Senator Mead, Dem., N. Y.) is in no mood for fault-finding. Its reports criticizing surplus property disposal plans will be held up until later. Talk about the Fair Employment Practices Committee has been stalled.

Mr. Roosevelt follows the same line. He won't make the headlines with a verdict on the Little Steel wage formula until after Nov. 7. After addresses in the New York and Philadelphia areas Thursday and Friday, Bricker will conclude his trip with talks Saturday in Youngstown, Niles, Akron and Cleveland.

Republican headquarters announced Stewart had received the endorsement of the Marion Star, East Liverpool Review, Steubenville Herald-Star, Portsmouth Times, The Canton Repository, sixth paper owned by the chain in Ohio, came out for Stewart recently.

GERMAN STAND

(Continued from Page 1.)

40,000 German troops from being pushed against the Maas.

Tank-led Allied troops, now including Americans under First Canadian army command, were crashing through thin German rear-guard and retreating columns to ward the Moerdijk bridge, only crossing of the mile and a half wide Maas in the central sector. Strafing planes ripped the openly-fleeing enemy.

A British army spokesman said the fall of Breda had brought about the "disintegration" of the enemy below the water barrier, the first of several major water barriers lying between the Allies and Rotterdam, 20 miles to the north.

The Americans had plunged two miles past the Breda-Roosendaal road to Moerstraten, six miles from the Maas.

The Germans were putting up a determined battle only around Roosendaal, at the western end of the 40-mile front, and here Nazi paratroopers still held determined Canadians and British out of the town.

The enemy was believed making this stand in an effort to prepare a defense along the small Mark river.

Plane Bullets Hit Town

CAREY, Ind.—Residents of Carey recently had a taste of war when more than 100 50-caliber machine-gun bullets tore through houses and ricocheted from sidewalks. It was later reported that the bullets came from planes firing at a towed target at 20,000 feet. Fortunately, no one was injured.

J-M Insulation Drives Chilly Drafts From Home

Hundreds of articles have been written regarding the insulating of homes, many of them by government agencies interested in conserving fuel, and the manufacturers of the insulating materials have done all in their power to convince home owners that it is real economy to insulate.

No firm is better suited to give real facts than the Johns-Manville Co. which manufactures the "blown" Rock Wool. J. M. has hundreds of satisfied customers scattered all over the United States who have benefitted from installations made many years ago.

R. B. Finley, manager of the Finley Music Co. on Broadway, is the agent in this district for Johns-Manville Rock Wool. If you will contact him he will arrange to visit you at your home and tell you exactly what it will cost to have the work done.

Matt Klein Equipped To Straighten Bent Autos

When we speak of craftsmen we think of quality, usually it's a person who has studied his craft in school and applied this knowledge in actual work over a period of years until every detail is perfectly simple to him even though it really is precision work. Such a man is Matt Klein who operates the only Bear Equipment for car and truck alignment in the Salem district.

Bear Equipment is built for straightening axles, frames, rods and other parts of all makes of cars. It is complete in every detail and the present equipment is the result of many years engineering experience in this highly specialized field. The Bear company maintains a school where operators learn how to use this equipment to the best advantage and under every possible condition.

Old Reliable Dairy's Milk Passes Rigid Tests

Health authorities have caused laws to be passed that prohibit the sale of many foodstuffs that in years gone by were accepted as safe without question. Milk is as generally used as any food product and as dangerous as it is not pasteurized or boiled, according to officials.

Many families use raw milk daily without fully realizing the dangers that may be present. The dairy that produces the milk may be as careful as possible to be and at the same time deliver milk that is reeking with organisms that are certain to prove harmful.

The safe way is boil the milk you use or buy only pasteurized milk and that's why the Old Reliable Dairy sells only pasteurized milk, milk you can be safe to drink or use in any way.

Miss Myers Is Bride Of Earl Schory

Miss Inez Faye Myers became the bride of Earl A. Schory, son of Mr. and Mrs. Samuel Schory of New Waterford, in a ceremony at 8:30 p. m. Saturday at the home of the bride's parents, Mr. and Mrs. Leo A. Myers, Aetna st.

Rev. G. D. Keister, pastor of Trinity English Lutheran church, officiated at the ceremony which was attended by 75 friends and relatives.

The couple were attended by her sister, Mrs. Milton Marple and Glenn Seacrest of New Waterford. The bride wore a royal blue tulle gown with a train and a gold band bracelet worn by her mother as a bride. Her sister wore a grey suit and corsage of red roses.

A wedding supper was served at the home for the immediate families at a table centered with a wedding cake topped with miniature bride and groom.

Following a wedding trip to Niagara Falls, the couple will make their home at 806 S. Lundy ave. The bride attended Salem High school and was formerly employed by the Mullins Corp. Her husband, who attends New Waterford High school, is an employee of the Mullins Co.

Guests were from Salem, New Waterford, Alliance, Petersburg, Columbiana, Washingtonville and Youngstown.

Insurance Firm Honors Two at Dinner Fete

Members of the Salem district of the Metropolitan Life Insurance Co. and their families enjoyed a dinner Saturday evening at Perry grange hall. The occasion honored Martin Zatkoff of 909 Morris st., and C. Ray Todd of Columbiana.

Zatkoff, agent on disability retiring after 26 years of association with the company, was presented his medal in recognition of his service by District Manager R. B. Greenberg. In accepting the medal Zatkoff reviewed his early years of association with the company.

C. Ray Todd, completing 20 years of service with the firm was presented his service pin by Manager Greenberg and officially inducted into the company's Veterans association by Veteran Manager Ray P. Pfeiffer of Youngstown, former manager of the Salem district. Assistant Manager Clifford Woods of the Salem district, also a veteran, welcomed Todd into the association.

Mrs. Todd was honored also with the presentation of a bouquet of 20 roses. The bouquet was presented to Mrs. Todd by Mrs. George Talbot, office supervisor here.

The evening was spent informally with games and dancing. Guests included Mr. and Mrs. Ray P. Pfeiffer and Mrs. George Pfeiffer of Youngstown; Mr. and Mrs. H. F. Paisley of Leetonia; Mrs. Joseph Leeson of Leetonia and Mrs. Walter Abrams of Alliance, wives of agents of the Salem district now in military service.

Couple Plan Marriage At New Waterford

Mr. and Mrs. Edward R. Bretz of New Waterford announce the approaching marriage of their daughter, Madeleine, to Norman E. Wilhelm, son of Mr. and Mrs. Clyde Wilhelm of R. D. East Palestine, on Wednesday, Nov. 15.

The bride-elect, a granddaughter of Mrs. E. B. Gearhart of E. Fourth st., and her fiancé are graduates of New Waterford High school in 1938. A teacher of piano, she is employed as a clerk in the New Waterford postoffice. Mr. Wilhelm is a dairyman.

The ceremony will be performed at 8:30 p. m. in the New Waterford Methodist church by Rev. C. R. Strobel of Republic, formerly pastor of the church, assisted by Rev. John L. Clark, present pastor.

The bride-elect will have her sister, Kathryn as maid of honor and another sister, Genevieve as bridesmaid. Clarence Wilhelm will serve as his brother's best man.

Open church will be observed for the ceremony, for which no invitations will be sent.

Ina Mae Getz Engaged To David Williams

Mr. and Mrs. J. L. Getz of 152 Vine ave., announce the engagement of their daughter, Ina Mae, to Midshipman David A. Williams, of New Waterford.

Miss Getz, a graduate of Salem High school in the class of 1944, is employed by the First National bank.

Mr. Williams attended Ohio State university, Swarthmore college, and is now at Columbia university, New York.

AND NOW CHET COPE PUTS IN HIS 2 CENTS' WORTH...

Did you notice recently that our paper carried a headline about a fellow being fined \$125 for reckless driving? What the paper did not say was that his right to drive was revoked for three years. The State Department of Highways revokes the license of any one who causes damage to another, if judgment is rendered against him. It's right to drive is lost for five years unless you have liability and property damage insurance or the money to pay for the damage. If you haven't any insurance and you have such an accident, can you afford to hire lawyers and pay court costs, plus the damage? Is your peace of mind worth \$1.25 per month? You should also have comprehensive fire and theft covering hail, glass breakage, etc.

With New Telephones
Being Made can!
Expect My Service Soon?

Reference in the newspapers to the War Production Board's permission for the manufacture of a limited number of telephone instruments has caused many persons on the residence service waiting list to hope for immediate service.

We wish this hope were justified. Here are the facts:

1. Manufacture of new instruments will not be started until late in the year and Ohio's share will be small.
2. More than 70,000 persons are on the waiting lists. If telephone instruments were available for all, we could give service to only about 17,000 of them. The rest could not be served because they live in localities where switchboards, cables, or other items of equipment are short. In their areas new service can be installed only when someone gives up his service.

We want you to know your order is important to us, and we regret that we cannot tell you when we will be able to serve you. However, the indications are that you may have to wait a considerable time after the army and navy tell us no more communications equipment is required and manufacturing on a broad scale can be resumed. In the meantime we promise your order will not be forgotten. All of us at the telephone company are deeply appreciative of the attitude of co-operation and understanding being shown by all. For this we say, "Thank you, you are swell."

THE OHIO BELL TELEPHONE CO.

Let these guys start it !

There's a day coming when the enemy will be licked, beaten, whipped to a fare-thee-well—every last vestige of fight knocked out of him.

And there's a day coming when every mother's son of us will want to stand up and yell, to cheer ourselves hoarse over the greatest victory in history.

But let's not start the cheering yet.

In fact, let's not start it at all—over here. Let's leave it to the fellows who are *doing* the job—the only

fellows who will *know* when it's done—to begin the celebrating.

Our leaders have told us over and over again that the smashing of the Axis will be a slow job, a dangerous job, a bloody job.

And they've told us what our own common sense confirms: that if we at home start throwing our hats in the air and easing up before the job's completely

done, it will be slower, more dangerous, bloodier.

Right now, it's still up to us to buy War Bonds—and to *keep on* buying War Bonds.

Let's do that. Let's keep bearing down till we get the news of final victory from the only place such news can come: the battle-line.

If we do that, we'll have the *right* to join the cheering when the time comes.

Ohio State Now On Top Of Big Ten, Must Win Three More

Still Has Indiana, Illinois And Michigan To Eliminate From Western Conference

By HAROLD HARRISON
COLUMBUS, Oct. 29.—Firmly entrenched atop the Western Conference football championship race, all Ohio State's unbeaten and untied Bucks have to do now is figure out ways and means of beating three of their four closest contenders for the title.

Indiana, tied with Michigan for second place, will be here next Saturday. Then will come what ought to be a breather against Pittsburgh, followed by final tilts of the season with Illinois and Michigan.

With those three important games still ahead, acting Coach Carroll Widdoes decided Saturday to take a chance against Minnesota's Golden Gophers and it worked—but good.

He held the ailing Gordon Appleby and Bill Willis out of the lineup entirely and saw to it that several other boys with physical woes had plenty of relief. The Gophers gained more ground through the weakened Buck forward wall than any other team but Ohio's array of brilliant backs, led by the veteran Les Horvath, had the game well under control before Minnesota ever scored.

Scoring in every period, Ohio State piled up a 34 to 14 count on the Gophers and the scarlet band at 27 to 0 lead when Minnesota finally reached touchdown territory.

Horvath turned in one of his finest performances of the season. His 30-yard run on the first play of the game put the Gophers in a hole and they didn't get out of it until well into the second period. By that time the Bucks had scored three times.

The first tally was particularly pleasing to the Ohio State coaches. It came on a pass from Horvath to Jack Dugger, the play covering 50 yards, although passing has been the weakest link in the Buck attack all season.

Bob Brugge got the second touchdown to climax a 66-yard march, and a few minutes later Ohio drove 56 yards for another tally with Horvath doing the point-making.

Minnesota's first scoring threats came after that but they couldn't do any good and at the start of the third period the Buck passing attack clicked again, a toss from Horvath to Traian Dendiu covering 63 yards and setting up for Ollie Cline to blast over.

The Parma veteran also was nothing short of terrific on defense. On several occasions he smeared Gopher ball carriers just when it looked as if they were about to get away.

Ohio State was outgained on the ground and outscored in first downs for the first time this season but it was just further proof that statistics don't mean much because the Gophers never had a chance at any time.

Many Colleges Lose Their Big Guns This Week As Changes Come

By HAROLD CLAASEN
NEW YORK, Oct. 30.—College football upsets were numerous Saturday but they were nothing compared to the form reversals expected the remainder of this season because of the Naval and Marine transfers which are slated for this week.

Army and Navy, of course, will keep their rosters complete and the Midwesterners at Notre Dame minus Chick Maggioni at Baltimore in Saturday's feature. It was Maggioni's 65-yard run, after taking a lateral from Bob Kelly, that brought the Irish a torrid 13 to 7 triumph over Illinois.

Army Wins
Army, which nicked Duke by a 27 to 7 edge, has Villanova as its next foe. The Philadelphia eleven loses seven players by transfer.

Michigan which smashed Purdue by a 40 to 14 score, comes East for its tussle with Pennsylvania minus Capt. Bob Wise, Bob Nussbaumer, Jim Aliber—all backs—and a pair of subs. The Boilermakers, carded for a game with Wisconsin, lose six of the men who opposed the Wolverines.

Penn. held to a minus 29 yards by Navy while losing a 26 to 0 contest, says farewell to Art Littleton, a defensive star at end.

Washington Loses Stars
Washington, which upset California, 33 to 7, no longer will have Keith Decouree, its scoring ace, and the Golden Bears, who tangle next with the staunch Alameda coast guard, will give up nine playing, seven of whom are considered regulars.

Saturday's encounter between Yale and Dartmouth will be one of has-beens, the Elis losing both their regular tackles and Dartmouth will be shy 24 Navy trainees.

Penn State, a surprise loser to West Virginia, 28 to 27 finishes the season with 20 Freshman and six Naval trainees following the disbanding of the Marine corps there.

Ohio State Now On Top Of Big Ten, Must Win Three More

Still Has Indiana, Illinois And Michigan To Eliminate From Western Conference

By HAROLD HARRISON

COLUMBUS, Oct. 29.—Firmly entrenched atop the Western Conference football championship race, all Ohio State's unbeaten and untied Bucks have to do now is figure out ways and means of beating three of their four closest contenders for the title.

Indiana, tied with Michigan for second place, will be here next Saturday. Then will come what ought to be a breather against Pittsburgh, followed by final tilts of the season with Illinois and Michigan.

With those three important games still ahead, acting Coach Carroll Widdoes decided Saturday to take a chance against Minnesota's Golden Gophers and it worked—but good.

He held the ailing Gordon Appleby and Bill Willis out of the lineup entirely and saw to it that several other boys with physical woes had plenty of relief. The Gophers gained more ground through the weakened Buck forward wall than any other team but Ohio's array of brilliant backs, led by the Veteran Les Horvath, had the game well under control before Minnesota ever scored.

Scoring in every period, Ohio State piled up a 34 to 14 count on the Gophers and the scarlet had a 27 to 0 lead when Minnesota finally reached touchdown territory.

Horvath turned in one of his finest performances of the season. His 30-yard run on the first play of the game put the Gophers in a hole and they didn't get out of it until well into the second period. By that time the Bucks had scored three times.

The first tally was particularly pleasing to the Ohio State coaches. It came on a pass from Horvath to Jack Dugger, the play covering 56 yards, although passing has been the weakest link in the Buck attack all season.

Bob Bruce got the second touchdown to climax a 66-yard march, and a few minutes later Ohio drove 56 yards for another tally with Horvath doing the point-making.

Minnesota's first scoring threat came after that but they couldn't do any good and at the start of the third period the Buck passing attack clicked again, a toss from Horvath to Traian Dendiu covering 63 yards and setting up for Ollie Cline to blast over.

The Parma veteran also was nothing short of terrific on defense. On several occasions he smeared Gopher ball carriers just when it looked as if they were about to get away.

Ohio State was outgained on the ground and outscored in first downs for the first time this season but it was past further proof that statistics don't mean much because the Gophers never had a chance at any time.

SPORT CHATTER

By HUGH FULLERTON, Jr.

NEW YORK, Oct. 30.—A young pitcher named Dick Blow was breezing through a game for the Albany Eastern league club one day last summer and shook off the catcher's signal. The catcher repeated the sign and again Blow shook his head. Then they staged one of those conferences where they shoot the breeze between the plate and the mound. In the course of it, Blow blew his top and they came to blows. Seeing what was in the wind, Manager Rip Collins stormed out of the dugout and chased both off the field. That night, Ripper handed the pitcher his release, saying, in effect, "Blow, Blow."

Texas scribes see the makings of another Sammy Baugh in Sammy Jacobs, who pitches passes for the North Side (Fort Worth) Steers, one of the highest scoring schools in the state. The boy teams in the state. The last time Andy Kerr, Colgate Grid Coach, heard where his son, Lt. Billy of the Navy, was assigned, Billy was aboard the Carrier Princeton, which was sunk last week.

Gains For Minnesota

Lundquist, Minnesota right halfback, gains 15 yards around down left end to Minnesota's 30 in first quarter against Ohio State. The Buckeyes won, 34-14.

LEETONIA DEFEATS LISBON 47-7; NOW READY FOR FITCH

McBride's Powerhouse Has Field Day With Blue Devils; Duco Shines

Emphasizing their already proven power, the Leetonia Blue and White smashed over a weak, unvictorious Lisbon Blue Devil squad, 47-7, in Lisbon Saturday afternoon to add another one-sided win to a near-perfect record.

Brushing up on a powerful offense in preparation for their tough bid against Austintown Fitch this week, the charges of Coach James L. McBride ran roughshod over the smaller, less experienced Lisbon crew.

Ed Duco, always a dangerous threat to the best of defenses, had a field day Saturday, scoring three touchdowns and passing 30 yards to End Dale Kinningsmith for another. His brother, Larry, dashed 35 yards for another Leetonia tally and reliable Tony Dominic accounted for a pair of six-pointers.

Ed Duco Flashes

Ed Duco marked off runs of 65 and 50 yards for two of his scores. He drove 11 yards for the third.

While the Lisbon game was just a "breather" for Leetonia—pointing to their fray with unbeaten, unscored on Fitch this week—the Austintown boys, coached by Ralph

Robinette, had somewhat of a "breather" themselves on Saturday. Playing a weak Class A aggregation, Brockfield, the Fitch lads ran up 40 points with little trouble and maintained their uncrossed goal line.

The battle between the two rivals this season, to be played in Leetonia at 2:30 p. m. Saturday, looms as the game of the day. Leetonia hasn't been beaten in seven games and has only one blemish—a 19-19 tie with East Palestine—on its record. Fitch is unbeaten, untied and unscored on in seven starts.

Last year's battle ended with Fitch on top by a 6-0 score, the only loss Leetonia suffered besides a 13-0 beating from Salem in 1943.

State's Small Colleges Topped By Miami, But They Face Three Games Less Stars

(By The Associated Press)

COLUMBUS, Oct. 30.—The mythical Ohio small college football championship apparently can be turned over to Miami University of Oxford, but the Redskins may have their hands full trying to finish the season as one of the nation's unbeaten and untied eleven.

Uncle Sam will just about wipe out their first team this week by transferring Naval and Marine trainees to other posts of duty but the Redskins will get a break in that their last two contests will be against comparatively weak teams.

They'll be idle this week before meeting Ohio Wesleyan and DePauw in their last two games.

Miami's 16 to 0 victory over Denison Saturday made it certain, however, that the Redskins would wind up the season with the best record in an intra-state competition.

The setback was the first of the season for the Big Red of Granville and completed its schedule. Seven games will be on the program this week with Baldwin-Wallace's tilt with Ohio Wesleyan probably topping the small college schedule. A Yellowjacket victory would put B-W in a tie with Denison in the number of triumphs.

Here is the schedule: Indiana at Ohio State; Wilberforce at Lincoln (Mo.) university; Capital at Otterbein; Muskingum at Wayne (Mich.); Baldwin-Wallace at Ohio Wesleyan; Case at Rochester (N. Y.); Oberlin at Wooster.

Dick Enzinger gave Miami a first period lead in its game against Denison Saturday and the Redskins held on to that margin until the fourth period when a safety and a 34-yard touchdown run by Bill Ellwood boosted the count to 16.

There were only three other games played and in one of them Wooster's Scots gave the dope bucket a kicking around by holding Baldwin-Wallace to a 20 to 20 tie. The Scots had lost their first three games and hadn't scored a point until they met the Yellowjackets.

Capital turned the tables on Muskingum and finished on the long end of a 14 to 13 count after dropping a decision to the Muskies earlier in the season.

Wilberforce made its first appearance in the victory department by whipping Tennessee state, 13 to 0.

Rams no longer were a title threat in the National Football League campaign today and a couple of part time players had a lot to do with it.

LEAVES FROM A WAR CORRESPONDENT'S NOTEBOOK

—by Hal Boyle—

WITH THE AMERICAN FIRST ARMY IN GERMANY — Sgt. Thomas J. Gibbons had no intention of out-working Sgt. York. He certainly had no idea he ever would capture 500 Germans single-handed.

This military Pied Piper from Elmhurst, N. Y., became one of the heroes of his division—the famous fighting First Infantry—by a simple and unromantic error.

He simply made a wrong turn in the road.

Gibbons was red-balling down a road in a captured German vehicle thinking of everything except the enemy when he absent-mindedly took a wrong fork. He was jolted rudely out of his day dream by coming face to face with a 50-odd ton Tiger tank and 15 Jerry soldiers.

This unexpected meeting was particularly embarrassing to the sergeant because he could not help noticing the acute interest the enemy soldiers took in the fact that he was riding in a Nazi army car.

Without noise or fuss the ownership of this vehicle reverted abruptly to the representatives of Adolf Hitler and the New York lad became a prisoner. Amid much Teutonic mirth his captors marched him off to their headquarters for a third degree.

But Gibbons didn't know anything.

"Search me," he said when they asked him what unit he was from. "I don't know—I just work here."

He told them when they wanted to know what American forces were then attacking in that sector.

Disgusted, they dispatched him toward their rear lines. But here his captors ran into difficulty themselves. For they no longer had any rear. They had been encircled and what had been their rear was just another front now.

Frankly they began searching for an escape route. American artillery poked the fields around them. American planes whined down to strafe at them and then stab again into the sky.

Gibbons immediately went to work on an escape plan. He got a German soldier to talk two guards into helping him.

At the first chance the two German soldiers killed two other German guards and Gibbons took charge. He raced across a field leading other prisoners and such German soldiers as were met and overpowered on the way.

He headed for a distant hill, but looking back, he noticed that his little army was growing steadily in size—and that the addition in personnel was all German.

Just Kept Going

"I didn't know whether we were

being followed or chased—but I just kept going," he said.

What was happening was that as he passed through the fields little groups of hopelessly surrounded German soldiers just tagged on to his "army," thinking it was the safest way for them to surrender.

Reaching the American lines, Gibbons convinced the outpost that he was an American and that there was no trick behind this arrival en masse. When he turned over his group of prisoners he found the number had increased from the original 22 to just over 500.

Tired from his busy day, Sgt. Gibbons dined on a can of "C" rations and caught some sleep. You go right all your life and nothing happens. One wrong turn and you're a hero—that's the battlefield.

Wellsville Negro Faces Grand Jury For Assault

WELLSVILLE, Oct. 30. — Willie Perry, 30-year-old Negro, pleaded guilty to a charge of assault with intent to rape when arraigned before Mayor Peters Saturday. He was bound over to the grand jury under \$1,000 bond.

Perry, married and the father of six children, was arrested by Police Chief H. R. Dushman Saturday night after he attempted to attack Mrs. Maud Shaw, 62, of Wellsville. The woman told police that the Negro, apparently intoxicated, had entered her home and forced his attentions on her.

The War Today

By DeWitt MacKenzie

fore the crossing is made. This will be by bombardment of vital war industries.

Veritas, British official commentator who has just made a personal survey of the fighting front, in calling attention to this prospect, points out that the Allied artillery will "be within easy range of almost all the important industrial centers of the Ruhr and the Saar. These two regions together represent between 60 and 70 per cent of Germany's heavy industry and over four-fifths of her coke supplies." And he reaches this grim conclusion.

"The arrival of the Allied armies on the Rhine will entail the total destruction of a high proportion of Germany's heavy industry, upon which all her war production ultimately depends. In addition, Silesia and the great industrial centers of Czechoslovakia are now indirectly threatened by the Russian offensive."

So if the Allies are held up at the Rhine, they won't be wasting any time. Also, what we do with long distance guns won't have to be done by soldiers at close quarters—and that's an inestimable boon.

The length of time it will take the Allies to break into the Reich across the Rhine will depend heavily on the volume of supplies they are able to move up for the offensive. That's why Antwerp is so essential.

Quack (Hic!) Quack

"Siwash," famous beer-drinking duck mascot of the Marine 2nd Division, pauses while seeing the sights of New York to dip his beak in a beaker of suds offered by Cpl. Francis Fagan, of Chicago, while perched on the arm of Sgt. Clarence M. Pearson, also of Chicago. "Siwash," won by the Marines in a New Zealand pub raffle, followed them ashore at Tarawa, Saipan and Tinian. For sometime "Siwash" was addressed as a drake until "he" laid an egg the other day.

OBITUARY

PVT. RAYMOND DEFFENBACH

Relatives here have received word of the death in a bus accident Saturday night at Macon, Ga., of Pvt. Raymond Dale Deffenbach, a grandson of the late Charles Sweeney of Salem.

The son of Mr. and Mrs. Thomas Deffenbach of Norfolk, Va., the soldier also is survived by his wife, Millie; and two children; two brothers, Gordon and Charles.

THEODORE SCHLARB

HANOVERTON, Oct. 30.—Theodore Schlarb, 69, died at 11:45 p. m. Sunday at his home on the Guilford d. following two years illness.

Born in Lower Salem May 13, 1875, he had lived in this vicinity or the last six years. He was a member of the Lutheran church. He is survived by his wife, Laura; two daughters, Mrs. Eleanor Mandel of Cleveland and Bertie; two sons, Wilbur of Pittsburgh and George of Alliance; two sisters, Mrs.

Elizabeth Zeigler of Pittsburgh and Mrs. Kate Gerson of Cambridge, and nine grandchildren.

Marriage Rate In Big Cities Shows '44 Slump

WASHINGTON, Oct. 30.—There have been fewer marriages this year than last—in big cities at least—and September was no exception.

The Census bureau reported today that in cities with more than 100,000 population, 42,000 marriage licenses were issued in September, compared with 48,000 the same month last year. In the first nine months of this year 387,793 licenses were issued, an 8.6 per cent drop from the 424,397 licenses issued in the first nine months of 1943.

was Andrew J. Higgins, New Orleans shipbuilder backing the fourth term, who said "whispered questions as to the President's health" are "pure malodorous bunk."

Other Washington developments included the release of a report by a sub-committee of the house committee on un-American activities (Dis. committee). This said that the CIO Political Action committee and the National Citizens Political Action committee "are now the rallying point for the Communist party and its Allied groups and organizations to rise to power by taking control of a major political party."

Chairman Sidney Hillman of the PAC commented, "Its charges are just propaganda and falsehoods, which have been repeated many times simply a part of the campaign to defeat the New Deal."

Action Leaves Question Over Soviet Western European Diplomacy

(By Associated Press)

WASHINGTON, Oct. 30.—Russia hung a question mark over her western European diplomacy today just as affairs in the Balkans slid into a groove of collaboration under Marshal Stalin and Prime Minister Churchill.

The newest upset in Washington, and probably London, calculations came over plans for the international aviation conference opening in Chicago Wednesday.

Moscow announced last night that Russia would not attend because "countries like Switzerland, Portugal and Spain, which for many years have conducted a pro-Fascist policy hostile to the Soviet union—have also been invited."

What caught attention, however, was the demonstration of a firm Soviet policy toward Spain, which had troops fighting for the Germans in Russia, and toward Sweden, which does not recognize Russia. Portugal presumably was lumped in with Spain.

Publication of the Bulgarian justice terms brought the Balkan picture into better focus. The terms were perfected under the sponsorship of Churchill and Stalin.

The armistice specified that Bulgaria must give the Allies full aid in prosecuting the war against Germany and must relinquish all claims to Greek and Yugoslav territory.

Other points included: (1) All discriminatory legislation arising from racial, political or religious causes must be repealed; (2) Bulgaria must restore all property taken from the United Nations and the nationals, or else must pay for the losses caused; (3) the Bulgarian government must make available immediate food supplies for the Greek and Yugoslav territories "which have suffered as a result of Bulgarian aggression."
